## CAMP BYOC

(Build Your Own Computer)

### A Unique Learning Experience

Camp participants will walk away with:

- A high performing computer built by them
- Printer, Monitor, keyboard, mouse and speakers
- Windows 7 or 8 and anti-virus/spyware software
- Valuable skills relevant for today's job market
- Ability to maintain their hardware and software
- A network of friends, advocates and mentors
- Be technologically ahead in High School

### Program Objectives:

- Understand the components involved in a computer
- Understand the maze of component interaction
- Answer the question of why it works the way it does
- Experience building a computer by hand
