RE: Free Covid Tests

The federal government has established a website to distribute one billion at home rapid Covid tests:

www.covidtests.gov

Up to four Covid tests can be mailed directly to your home and are being distributed free of charge. The first half-billion tests became available for order on January 19, 2022. The Covid tests will typically ship within 7-12 days of ordering. Please advise if I can provide additional information or assistance regarding this opportunity to obtain free at home Covid tests through the www.covidtests.gov website. Thanks,

Matt Clayton
